Latest news

Have you seen our new website yet?

We have a brand new online platform, designed with a modern look and user-friendly navigation. There are improved opportunities for members to share best practice and you can also access information on all the latest news, events and workshops - plus sign up as an [Investors in the Environment \(iiE\)](#) member online!

Take a look

Recycle your Christmas cards!

This festive season, iE is repeating its annual campaign to encourage members of the public and businesses to join forces to help collect and recycle Christmas cards. For every 1,000 cards recycled through Marks and Spencer the Woodland Trust will plant one tree.

Get involved

Read up on the latest legislation

A proportion of current UK environmental law derives from EU legislation. The immediate impact of Brexit would depend on how the split is achieved and the model put in its place. Read a short summary of the expected changes to legislation.

New partnership with Rydal

Investors in the Environment has launched an exciting new partnership with the Rydal Group, providing organisations of all sizes with a comprehensive range of communication, IT and utility management

solutions designed to enhance productivity and efficiency.

Members will receive expert advice on the latest energy-efficient technologies and hardware, remote working and smart office solutions, with access to over 150 business utility tariffs to ensure you are getting the best deal from your current gas, electricity and water suppliers.

We met with Group Director Steffan Dancy and Head of Utilities Matthew Mitchell to find out a little more about how members can achieve greater operational efficiencies.

Case Studies

The University of Northampton's 'Winter Shutdown'

Last year The University of Northampton saved several thousands of pounds over the winter months, by making sure that everything electrical was shut down. The University committed itself to achieving an ambitious target of a 43% reduction in CO2 emissions by 2020.
